

# 2025 Children's Health Insurance Program (CHIP)

# **DRUG LIST**

## (Formulary)

**Important notice for CHIP managed care plans in Pennsylvania:** Advertised managed care plans or programs may not cover all your healthcare expenses. Read your member handbook carefully to determine which healthcare services are covered. Please call 800.KIDS.101 or the number on the back of your ID card (TTY: 711).

CHIP coverage is issued by Keystone Health Plan® Central through a contract with the Commonwealth of Pennsylvania. Capital Blue Cross Dental and Capital Blue Cross Vision are issued by Capital Advantage Assurance Company®. Capital Advantage Assurance Company and Keystone Health Plan Central are subsidiaries of Capital Blue Cross. All are independent licensees of the Blue Cross Blue Shield Association. Communications are issued by Capital Blue Cross in its capacity as administrator of programs and provider relations.

# Capital Blue Cross

To search for a drug name within a PDF of this document, use the **Control** and **F** keys on your keyboard, or go to **Edit** in the drop-down menu and select **Find/Search**. Type in the word or phrase you are looking for and click on **Search**.

A searchable version of this formulary can be found on our website,  
[CapBlueCross.com/formulary](http://CapBlueCross.com/formulary).

## The CHIP Formulary

Capital Blue Cross created the Children's Health Insurance Program (CHIP) Formulary to give members access to quality, affordable prescription drugs and to provide providers with a list of preferred drugs for cost-effective prescribing.

### How the formulary was developed

The CHIP Formulary was developed and is maintained by the Capital Blue Cross Pharmacy and Therapeutics (P&T) Committee. This committee, composed of practicing providers from various medical specialties, practicing pharmacists, and other healthcare providers, reviews drugs in all therapeutic categories based on safety and effectiveness and designates the most effective agent(s) in each class. The P&T Committee regularly reviews new and existing drugs to ensure the CHIP Formulary considers our member's needs.

### Request for reconsideration (for providers)

Providers may request a reconsideration of tier status for a drug on the CHIP Formulary by completing a Formulary Status Reconsiderations form or by writing a letter indicating the significant advantage of the specific drug and mailing it to the address below:

**Pharmacy Services**  
Capital Blue Cross P&T Committee  
P.O. Box 773735  
Harrisburg, PA 17177-3735

The P&T Committee will review drug-specific requests and communicate the results of the review to the requesting provider. Review of requests concerning specific patients must follow the dispute and appeal process.

### Coverage considerations

Coverage is limited to prescription drugs approved by the U.S. Food and Drug Administration (FDA) as evidenced by a New Drug Application (NDA), Abbreviated New Drug Application (ANDA), or Biologics License Application (BLA) on file. However, any legal requirements or group-specific benefits for coverage supersede this (for example, preventive drugs under the Patient Protection and Affordable Care Act). If your provider believes that a new drug is medically necessary before the P&T Committee's evaluation, your provider may submit a nonformulary exception request for coverage.

### Additional coverage considerations

Coverage is limited to prescription drugs approved by the Food and Drug Administration (FDA) as evidenced by a New Drug Application (NDA), Abbreviated New Drug Application (ANDA) or Biologics License Application (BLA) on file. However, any legal requirements or group-specific benefits for coverage supersede this (e.g., preventive drugs under the Affordable Care Act). If your provider believes that a new drug is medically necessary before the P&T Committee's evaluation, your provider may submit a nonformulary exception request for coverage.

### Generic drugs

Generic drugs are typically the most affordable and offer a lower cost share than brand-name drugs. The active ingredient in a generic drug is chemically identical to the active ingredient in the brand-name version. To help lower your out-of-pocket costs, choose generic drugs whenever possible. This can result in long-term savings, especially in the case of drugs taken daily and refilled frequently. Choosing

a brand-name drug when the generic version is available could result in a reduced benefit and higher out-of-pocket cost.

## Restricted generic substitution

When a prescription order is filled with a generic drug, the member is responsible for the applicable copayment. When the member requests a prescription order be dispensed with a brand drug, which has an approved generic drug equivalent, the member is responsible for the applicable brand drug copayment in addition to the difference in cost between such brand and the generic equivalent.

However, if the prescriber requires such brand drug be dispensed in place of an approved generic drug equivalent, the member is responsible for only the applicable brand drug copayment.

## Patient Protection and Affordable Care Act

Some drugs may have limited or \$0 cost-sharing under the Patient Protection and Affordable Care Act (PPACA), including drugs in such categories as aspirin, breast cancer preventive, fluoride supplements, folic acid supplements, iron supplements, statins, tobacco cessation, vaccines, vitamin D supplements, and some contraceptive drugs and devices.

## Non-prescription drug policy<sup>1</sup>

Select over the counter (OTC) drugs may be covered as determined by Capital Blue Cross or mandated by the Patient Protection and Affordable Care Act (PPACA). If a prescription drug has an available OTC equivalent, the prescription drug will not be covered. Providers and pharmacists should guide members to the OTC equivalent product, when appropriate.

## Compound drug policy

Prescribed compound drug products are considered Brand Non-Preferred (BNP) and may require prior authorization. Not all pharmacies can compound drugs. You can find a pharmacy that compounds drugs by calling the Member Services number on the back of your ID card (TTY: 711).

**Benefit Exclusions/Limitations<sup>2</sup>:** Depending on your prescription drug plan, some drugs listed may not be covered. Examples of contractual exclusions include:

- Appetite suppressants (weight loss).
- Anti-obesity (for example, Wegovy).
- Drugs used for cosmetic purposes (wrinkles, hair loss, etc.).
- Erectile dysfunction drugs.
- Non self-administered injectable drugs.
- Experimental and investigational use (including off-label use) .
- Vitamins that are not considered preventive drugs

Prescription drugs are a covered benefit as determined by your Benefits Booklet, (Certificate of Coverage). Any FDA approved medication that may not be dispensed without a prescription order. Drugs that are not approved by the FDA are not covered by your benefit plan.

<sup>1</sup> As mandated by PPACA, select OTC drugs may be covered at \$0 cost share for members.

<sup>2</sup> The listing of a drug in this formulary or search result is not a guarantee of coverage or payment. Please check your CHIP Member Handbook to verify coverage of a drug (for example, weight loss, sexual function, and fertility drugs) and for details about your benefits. Drug benefits and claim payments are subject to your drug plan's specific terms and conditions, including eligibility and medical necessity determinations.

**Specialty drugs:** Specialty drugs are used to treat medical conditions such as hepatitis, multiple sclerosis, and rheumatoid arthritis. Specialty drugs may be oral or injectable drugs and can be self-administered. Specialty drugs are distributed through your plan's specialty pharmacy provider, Accredo<sup>3</sup>. Some specialty drugs are only available via select pharmacies and are called Limited Distribution. Limited Distribution indicates if the drug is restricted, and which pharmacies can dispense them. This limits where the member may obtain the prescription. Members may be required to use another pharmacy for limited distribution prescription drugs. You or your provider can call 833.721.1626 (TTY: 711) or fax 888.302.1028 to receive information on starting service. Members can also set up service through Accredo<sup>3</sup> by logging in to their secure account at [CapitalBlueCross.com](http://CapitalBlueCross.com).

**Injectable drug policy:** Self-administered pharmacy injectable drugs are usually covered under the Capital Blue Cross prescription drug plan. Injectable drugs that are not routinely self-administered are not covered under the prescription drug plan but may be covered under your medical benefit. Select medical injectable drugs may be available from Accredo<sup>3</sup>, Capital Blue Cross' specialty medical injectable provider. For information about distribution and billing of these drugs contact Accredo<sup>3</sup> by phone at 833.721.1626 (TTY: 711) or by fax at 888.302.1028. Members can also set up service through Accredo<sup>3</sup> by logging in to their secure account at [CapitalBlueCross.com](http://CapitalBlueCross.com).

## Utilization management

**Prior Authorization (PA):** Your prescription drug plan may require prior authorization for certain drugs. This means that your provider will need to submit a request for coverage of these drugs, which will need to be approved before the drug will be covered under your plan. If a prior authorization is commonly required for a drug listed in this document, it will be noted with a dot in the prior authorization column next to that drug. Some plans may require prior authorization on additional drugs beyond those noted in this document. Refer to your prescription drug plan materials for details about your particular benefits.

**Step Therapy (ST):** Your prescription drug plan may include a step therapy for certain drugs. This means you may need to try another proven, cost-effective drug before coverage may be available for the drug included in the program. Many brand drugs have less expensive generic or brand alternatives that might be an option for you. If a step therapy is commonly required for drugs in this document, they will be noted with a dot in the step therapy column next to that drug. Some plans may have step therapy programs on additional drugs beyond those noted in this document. Refer to your prescription drug plan materials for details about your particular benefits.

**Quantity Level Limits (QLL):** Certain drugs have a quantity level limit to support safety. These drugs will be noted with a dot in the quantity level limits column next to the drug. Limits may include quantity of covered drug per prescription, quantity of covered drug in a given time period, coverage only for members within a certain age range, and coverage only for members of a specific gender. If your provider prescribes a greater quantity of drug than what the quantity level limit allows, you can still get the drug; however, you will be responsible for the full cost of the prescription beyond what your coverage allows.

<sup>3</sup> Accredo Health Group, Inc. is a specialty pharmacy that is contracted through Prime Therapeutics LLC to provide services to members of Capital Blue Cross. On behalf of Capital Blue Cross, Prime Therapeutics LLC assists in the administration of our prescription drug program. Prime Therapeutics LLC is an independent benefit manager.

## Special programs

**Medication Synchronization:** You may obtain a partial fill or refill of your maintenance prescription drugs at your option when you are taking two or more maintenance medications. This can help make it easier for you to take medications correctly as prescribed. You can work with your in-network pharmacist so that the refill syncs up with another maintenance medication. Additionally, we will prorate your applicable cost-share amounts (e.g., copay or coinsurance) to align with the reduced supply. You can initiate a synchronization up to three times per year.

Note: Some state laws may not allow a prescription drug plan to cover certain controlled substance drugs if they are dispensed in a quantity greater than the dispensing limit. You will be responsible for the full cost of the prescription, with no benefits applied, if the dispensed quantity exceeds the dispensing limit.

## How to use this list

The easiest way to find a drug on the list is to use the search function:

Use the **Control** and **F** keys on your keyboard or go to **Edit** in the drop-down menu and select **Find/Search**. Type in the word or phrase you are looking for and click on **Search**.

This list is organized into broad therapeutic categories. For example, Respiratory Agents is a broad category. Within most categories, drugs are sub-grouped based upon drug class, for example under Respiratory Agents you will find Antihistamines. All drugs listed, whether generic or brand, are formulary drugs. The graphic below shows the information provided in each column of the drug list and is an example only.

1	2	3	4	5	6		
Drug Name	Tier	Specialty	Prior Authorization	Step Therapy	Quantity Level Limits	PHC	Limited Distribution
ANTI-INFECTIVE AGENTS							
PENICILLINS							
AMOXICILLIN - amoxicillin (trihydrate) chew tab 125 mg	BN						
AMOXICILLIN - amoxicillin (trihydrate) chew tab 250 mg	BN						
<b>amoxicillian (trihydrate) cap 250 mg</b>	GP						
<b>amoxicillian (trihydrate) cap 500 mg</b>	GP						
<b>amoxicillian (trihydrate) for susp 125 mg/5ml</b>	GP						
<b>amoxicillian (trihydrate) for susp 200 mg/5ml</b>	GP						
<b>amoxicillian (trihydrate) for susp 250 mg/5ml</b>	GP						

- ① Column 1 (**Drug Name**): lists the drug name. Generic drugs are listed in lowercase **boldface**. Brand name drugs are CAPITALIZED. Separate drug entries are required for some dosage forms such as extended-release and delayed-release.
- ② Column 2 (**Tier**): indicates the Tier level.
  - Preventive Health Care Drugs are marked with a “PH”.
  - Generics Preferred are marked with a “GP”.
  - Generics Non-Preferred are marked with an “GN”.
  - Brands Preferred are marked with a “BP”.
  - Brands Non-Preferred are marked with an “BN”.
  - Specialty Preferred Drugs are marked with a “SP.” These drugs are also marked with a dot in the Specialty column.
  - Specialty Non-Preferred Drugs are marked with a “SN.” These drugs are also marked with a dot in the Specialty column.
- ③ Column 3 (**Specialty**): indicates if the drug is a specialty drug and needs to be filled at a participating

specialty pharmacy in our network.

- 4 Columns 4, 5, and 6 (**Prior Authorization, Step Therapy, Quantity Level Limits**): indicate Utilization Management (UM) Program that apply to the prescription drug (e.g., Prior Authorization, Step Therapy, and Quantity Level Limits). If an indicator is present in a column, then the pharmacy program applies. Some plans may have UM on additional drugs beyond those noted in this document.
